

Product name	THR MOSIN® Heat Insulation paint D.I.Y. pack(Water based)					
Package	Weight of paint 9kg/1set+tool weight					
Material	Resin,Pigment,Additive,Water(Instead of solvent)					
Temp-range	Room temperature					
Date to storage	6month					
Product introduction	<p>Water based Heat Insulation paint THERMOSIN®</p> <p>Expected potential customers: Industrial equipment for heat treatment / Baking , Drying furnace , baking gas pipes (heat source that requires heat insulation, etc.)</p> <p>This is water-based paint that has a heat insulating layer just by applying it to targeting material. (~200°C heat resistance)</p> <p>Energy saving effect can be obtained by preventing heat leaking from the various furnace and incinerator. By a multi-layered coatings contain a special heat insulating material, It suppresses heat dissipation and improves thermal efficiency with only about 1mm thickness coating.</p> <p>It is a aqueous paint that takes the environment and human safety into consideration.</p> <p>It does not have a organic solvent odor, and it is easy to use more safe and comfortable. Please dilute it with 10% additional drinking water, if necessary.</p> <p>■Heat insulation paint package detail (for about 8 square meters.)</p> <p>[Contents]</p> <p>A2101BK03S (Primer coat)/ Black color 0.5kg/Plastic bottle A1601GR01S (Second coat)/Gray color 8 kg/Plastic container A2101SL01M (Third coat)/ Silver color 0.5kg/Plastic bottle</p> <p>* This package already include paint tool(one paint roller for water-based paint and sandpaper for base arrangement, paint tray)which needed to paint easily.</p> <p>□Merit to use</p> <p>■ Dilution with drinking water ■ Non-dangerous goods ■More easier to arrange environment for painting because tool for paint is all included in this package</p> <p>■ Send from Saitama factory in Japan ■ Non-solvent odor■Easy to use by novis also</p>
